

About Us: Co - Creative Directors & The Vibrant Team.

Mary Jo & Steve Halligan (V.L.R. launched May 2015)

Hi, we are a husband and wife team whom both grew up in Ireland. We arrived in the beautiful alpine village of Hanmer Springs in 2009. Since then Hanmer Springs has opened it's arms to us, nurtured and supported us to blossom as individuals and create our dream life style. We are immensely grateful to live here and be surrounded by the abundance and delights of N.Z's raw nature each day. In the earlier years in H.S. Steve worked locally as a builder and developed his new found passion for mountain biking, while I, Mary Jo continued to develop my experience, qualifications, skills and experiences in the Day Spa industry, Healing Arts and running Yoga Wellness & Detox Retreats.

Our Background: After leaving Ireland in '96 & '97 we both lived in Jersey, Channel Island, UK for 10 years. We worked in different jobs over the years there and used it as a wonderful spring board to travel back and forth to different countries and places around the world in Asia, Australia, U.S and Central American. As we travelled in South East Asia and India we gained precious insights into many different cultures, spiritual orientations, yogic lifestyle and massage. I, Mary Jo trained and qualified in massage on returning to the UK in 2006 as a hobby to begin with and soon discovered a natural passion. This then developed into a soulful pursuit to discover BMS integrated health, conscious living and wellness. At Vibrant Living Retreat & Day Spa launched May 2015 we bring both our individual skills, talents & passions together to create an enchanting environment with a warm welcome, which is delightfully relaxing, holistically pampering and deeply restorative. Our travel days have definitely gifted us a warm global heart. We love meeting people travelling from different parts of the world & around New Zealand.

STAY & RECHARGE YOUR VIBRANT LIFE WITH US.
